Dear Parents / Guardians,

Year 4 – Permission for use of plaque tablets

As part of our Cornerstones topic – burps, bottoms and bile, we are studying ways in which to keep our teeth healthy. One of our planned lessons involves the children placing a plaque disclosing tablet in their mouths to see how much plaque is on their teeth.

A plaque disclosing tablet is a chewable tablet used to make dental plaque visible, the teeth will turn a purple colour which the children will then rinse away with ease shortly after. Following this, we will teach the children how to brush their teeth properly to remove as much plaque as possible.

Please complete the consent slip below to confirm you are happy for your child to take part in this activity. If you have any questions or concerns then please don't hesitate to contact us.

Kind regards,

Mrs Boynton and Mr Rosevear.
