

## Maths

The year is rounded off with units of learning based around time, shapes, symmetry and translations. We will learn about 12 and 24-hour time and calculating elapsed time. Our knowledge of quadrilaterals and triangles will develop as we learn to compare them based on their properties. We will also enjoy studying symmetry and translations too.

## P.S.H.E.- Jigsaw

This half-term the topic is called 'Changing Me'. It explores how we can inherit characteristics from our parents, along with naming the necessary body parts for producing a baby. We also learn about changes and learn about strategies to help us manage and cope with a range of changes we may experience.

## R.E.

A return to Christianity where we explore the theme of Prayer and Worship and consider the question - Do people need to go to church to show they are Christians? We will use various texts to help us understand and reflect on this important question.

## P.E.

We continue the Athletics theme this half-term, as we continue to learn and develop our skills across a variety of athletic disciplines. Outdoor education will also feature with Mr. Yelland.

## French

Holidays and Hobbies are the focus for this half-term as we begin thinking about the end of the school year.

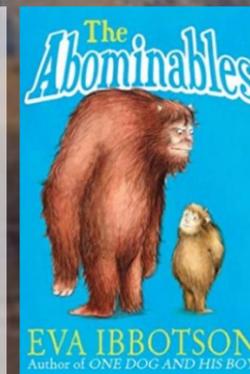

## Art

This half term we will learn all about landscape art. We will look at a range of landscape paintings, both natural scenery and urban landscapes. We will explore how colour can be used to evoke emotions in a painting and learn about a range of shading techniques. We will use viewfinders to isolate particular parts of landscapes to focus on and we will learn how to create atmospheric perspective in a painting.

# Summer 2 Misty Mountain Sierra

## Reading

This half term we will journey to the Himalayan mountains to the secret valley of Nanvi Dar. Join Agatha, Con and Ellen on their quest with the mysterious yetis in 'The Abominables' by Eva Ibbotson.

## Music

We round off the year with a focus on writing lyrics in the rap genre. Appraising the classic 'Lean on me', the focus is on anti-bullying and sending out positive messages.

## English

This half term we will begin our learning journey by looking at poetry. We will be writing our own free verse poems about mountains and writing this in the style of a calligram. We will also write a narrative based on our whole class text. We will finish the half term with an author study about Eva Ibbotson.

## Science

This half term we will learn all about states of matter. We will identify and group materials based on their properties into solids, liquids and gases. We will also discover how items can change state through heating and cooling. Finally, we will learn about the four stages of the water cycle focusing on evaporation and condensation.

## Computing

The main focus will be on the incredibly useful skill of effective searching of the internet, so that we can find what we want quickly. We will also investigate how to question the truth and reliability of information too.

## Geography

It's time to enter the wonderful world of mountains. We will learn about the largest mountains across the globe and then focus our attention on the UK - where are the highest places close to home? Reading contour lines will feature too, along with learning the different ways some of the giant mountainous beasts are formed.
